Introduction

Access to *e-Helvetica Deposit* has been modernised. Due to new security requirements, the login process for *e-Helvetica Deposit* has been changed. As a result, we are now offering the login process via eIAM.

This entails the following changes for registered users of the platform:

The login details you have used up to now are no longer valid. Instead, you can link your *e-Helvetica Deposit* account to an AGOV account, CH-Login or SWITCH edu-ID.

If you already have such an account, you can log in to *e-Helvetica Deposit* via eIAM. If you do not yet have any of these logins, you can register using the same link.

To access your existing account, including the overview of books/journals/websites already submitted, please use **the same email address** that you previously used to log in to *e-Helvetica Deposit*. If you already use AGOV with a different email address, please create an additional AGOV account with the address stored in *e-Helvetica Deposit*.

It is currently not possible to link different AGOV accounts to the same *e-Helvetica Deposit* account. This function is being developed and is expected to be available in the course of next year. If several people in your company/institution need to have access to your *e-Helvetica Deposit* account, it is possible to share an AGOV account with one or more people. However, this does involve certain risks. Instructions and information about this option can be found under the following link: <https://help.agov.ch/?c=sharedtherdparties&l=en>.

If you have any problems or questions about creating an AGOV account, please contact: helpdesk@bak.admin.ch

If you have any other problems accessing your *e-Helvetica Deposit* account, please contact: deposit.e-helvetica@nb.admin.ch

Registration with AGOV

Step 1

Access the deposit via <https://www.deposit.e-helvetica.nb.admin.ch> and click on «Login»:

Schweizerische Eidgenossenschaft
 Confédération suisse
 Confederazione Svizzera
 Confederaziun svizra

Swiss National Library NL

[Information](#)

e-Helvetica Deposit

On [e-Helvetica Deposit](#), you have the possibility of depositing individual digital books and journals to the Swiss National Library. Before you can deposit digital publications, you have to register as a publisher (only once).

Access to e-Helvetica Deposit has been modernised. If you already have an e-Helvetica Deposit account, the login details you have used up to now are no longer valid. Instead, you can link your e-Helvetica Deposit account to an AGOV account, CH-Login or Switch Edu-ID. All the information you need about the new login procedure can be found [here](#).

Step 3

If you don't have an AGOV account with the **e-mail address** you used for accessing the deposit until now, you need to create one initially. To do so, click on «Register now!».

Step 4

1. Install the AGOV access app from the Apple App Store or the Google Play Store on your phone. Alternatively you can also use a security key as a second factor.
2. Start the registration process by clicking «Start».

We are going passwordless.

Instead, we provide you with two different options to access your AGOV account:

Option 1: Install AGOV access

AGOV access is an application that uses Face ID or Touch ID to log you in to your account. You can download it from the [App Store](#) or the [Play Store](#). System requirements can be found at <https://www.agov.ch/en/os>.

Option 2: Use a security key

A physical security key offers a secure way to log in without having to use a phone. A list of supported security keys can be found at <https://www.agov.ch/en/security-keys>.

Step 6

1. As a further option for the recovery of your AGOV account you can choose to enter your phone number. Click on «Continue».

The screenshot shows the 'Step 6 of 6 Recovery options' screen. The title is 'Register Recovery options'. Below the title, there is a paragraph: 'In addition to your recovery code you can add your phone number. This will allow you to continue with an SMS during recovery if you have lost access to your recovery code.' Below this, there is a label 'Phone number (optional)' and a text input field with a Swiss flag icon and '+41'. Below the input field, there is a blue information box with a white 'i' icon and the text: 'Phone number must be able to receive SMS. It will not be used to contact you.' At the bottom of the form is a large purple 'Continue' button. To the right of the form is an illustration of a person standing next to a large smartphone screen that displays a profile icon, several horizontal lines representing text, and a checkmark at the bottom.

2. Enter your phone number once more and click on «Continue».

The screenshot shows the 'Repeat phone number' screen. The title is 'Repeat phone number'. Below the title, there is a paragraph: 'To ensure you have recorded your phone number correctly, please repeat it below. An incorrectly stored phone number can make it more difficult to recover your account.' Below this, there is a label 'Phone number' and a text input field with a Swiss flag icon and '+41'. At the bottom right of the form are two buttons: a white 'Back' button and a purple 'Continue' button.
